

The 2022-2023 Official Enoch Calendar

(Gregorian Format)

by: Nicholas James VanderLaan

Calendar Outline, Rules, Concepts, & Commentary:

The calendar year is 364 Days as stated 5 times in 1st Enoch, twice in Jubilees, & twice in the Dead Sea Scrolls.

Jubilees 6:32-38 is an explicit that the calendar is 364 Days and **NOT** a 354 Day Lunar Calendar and those that use a lunar calendar will be in severe ERROR for Feast Days and Sabbaths and Months, and Years, and more.

New Month = Rosh Chodesh. Rosh in Hebrew means "head." Chodesh in Hebrew means "renewing cycle." So the renewing cycle (month) are 30 days intervals.

The calendar has 12 months of 30 Days each plus 4 intercalary days (which are 1 day at the end of the every three months, so months 3, 6, 9, and 12 have 31 days) for a total of 364 Days.

In 1st Enoch chapter 72, it documents the sun rising and setting in portals along the horizons for the following days: 30, 30, 31, 30, 30, 31, 30, 30, 31, 30, 30, & 31 for a total of 364 Days. Each period corresponds with a month.

The Spring Equinox is the 365th Day of the Solar Cycle and **NOT** part of the 364 Day Calendar Year. There is a distinction between the solar cycle and the solar calendar year. They are not the same. Every 4th year there is a leap day and the Spring Equinox occurs on the 366th Day of the solar cycle.

According to Job 3:1-26, Job (who is pre-flood) cursed the day he was born and had it removed from the reckoning of the year. I hypothesize that Job was born on the Spring Equinox and this reason the calendar is 364 Days and **NOT** a complete solar cycle of 365.24 Days.

The Spring Equinox separates the calendar years as per Enoch 72:32-33 "through the course of the sun these distinctions are made (literally 'they are separated')." I understand the translator R.H. Charles inserted his commentary (literally 'they are separated') into the text to emphasize to us the literal meaning of the Ethiopian text that there is a division after the 364th Day of the calendar.

Jubilees 2:9 "And Elohim appointed the sun to be a great sign ON the earth for days and for sabbaths and for months and for feasts and for years and for sabbaths of years and for jubilees and for all seasons of the years." This verse means that the sun calibrates / re-calibrates / resets the calendar year ever year.

How does the sun do this? By the Spring Equinox. The sun's casted shadow on the Spring Equinox is the Great Sign ON the earth and it calibrates everything mentioned in Jubilees 2:9. The Spring Equinox calibrates / re-calibrates / resets the calendar year / and in doing so it also establishes the days of the week for the new coming year. So we on earth sync our days up to heaven and the heavenly Sabbath that goes on in heaven. This means that YHWH Elohim's calendar does not use the false Gregorian days of the week but rather establishes the days of the week for the new year.

The day following the Spring Equinox is the 1st Day of the 1st Month and resets to the 4th Day of the Week, the day Elohim made the sun, moon, and stars, and "time began."

We know the 1st Day of the 1st Month is the 4th Day of the Week because in Dead Sea Scroll 4Q394 1-2 they "pegged" Shavuot to the 15th Day of the 3rd Month and we know Shavuot is always on the 1st Day of the Week, so all we have to do is count backwards to the 1st Day of the 1st Month and it is the 4th Day of the Week.

The Dead Sea Scrolls also "pegs" the date of First Fruits of Barley Festival to the 26th Day of the 1st Month in scroll 4Q325. This means that the Barley Festival does not take place during the week of Unleavened Bread but rather on the day after the Sabbath after the Festival of Unleavened Bread. And also like Shavuot, when you count backwards from the Barley Festival to the 1st Day of the 1st Month, it is the 4th Day of the Week.

This means every Festival (and date) is on the same day of the week every year. example: no Passover, or any other Festivals take place on the 7th Day Sabbath.

I understand the "24 Hour" Day begins at Sunrise **NOT** Sunset per 1st Enoch chapter 72 regarding the first law of the luniaries which is the sun rises and more so YHWH Elohim's words Jeremiah 33:14-26. The gospel writer of Matthew 28:1 gives the most detailed specific account.

Yom Kippur starts on the evening (sunset) of the 9th to the evening (sunset) of the 10th Day of the 7th Month per Leviticus 23:32. I understand the fast is broken at night on the 10th with a celebratory meal thus being a Feast of YHWH. The fasting / mourning starting at evening (sunset) the day prior seems logical to possibly be a precedent also for the fast days of the 4th, 5th, and 10th months.

The Enoch Calendar is the ecclesiastical calendar. There is an additional Sectarian / Civil calendar that is also 364 days and starts on the 1st Day of the 7th Month. (Dead Sea Scroll 4Q394 3-7 i)

The Enoch 364 Day Calendar

1st Enoch chapter 72

The Sun, the 12 Months, & the 6 Gates / Portals

*The Spring Equinox is the 365th Day of the Solar Cycle and not part of the 364 Day Calendar.

Enoch 82

The Leaders of the Stations which Divide the Four Seasons: Malki'el, Hela'emmelek, Milay'ul, and Narel (Enoch 82:11-14). These are to "divide" and "sunder" the seasons thus they correspond with the four intercalary days of Enoch 72 placed within the year to divide the year into four parts, they are on the 31st days of month 3, 6, 9, & 12.

Enoch 82:11-14 "Their four leaders who **DIVIDE the four parts of the year** enter first; and after them the twelve leaders of the orders who divide the months; and for the three hundred and sixty (days) there are heads over thousands who divide the days; and for the four intercalary days there are the leaders which **SUNDER the four parts of the year**. And these heads over thousands are intercalated between leader and leader, each behind a station, but their leaders make the division. And these are the names of the leaders who **DIVIDE the four parts** of the year which are ordained: Malki'el, Hela'emmelek, and Milay'ul, and Narel."

The text is clear: these days are to divide the year into four parts, thus sundering the year, and not sit as a block of 4 days at the end of the calendar. (The false Egyptian calendar had five days following the end of their 360 day year).

The Twelve Leaders of the Orders which Distinguish the Months: Tam'ayen, Berka'el, Zalebsa'el, Geda'iyal, Helya'el, and Ki'el (six names are missing from the text)

These Three Follow the Leaders of the Orders: Adnar'ul (Summer Solstice), Iyasus'el (Fall Equinox), Elum'el (Winter Solstice)

The Additional Heads over Thousands who divide the Three Hundred and Sixty (days): Heluyasaf, and Asfa'el, (two names are missing from the text)

**The chapter is incomplete and appears to have been missing the end part of the chapter. We are missing six names of the Leaders of the Orders of Fall, and Winter. We are also missing the two names of the (additional) Heads over Thousands. We could also be missing additional information to the 365th Day of the Solar Cycle aka the Spring Equinox. Also, most chapters in The Book of the Courses of the Heavenly Luminaries seem to be written with a chapter summary which chapter 82 also does not have.

The Covenant of Noah RESTORED

Over 3 years ago I was given the understanding to restore the Covenant of Noah.

It dawned on me the only biblical method of the righteous eating flesh of beast or bird was to eat boiled flesh seethed in water and the blood water poured out on the ground and covered with dirt. (The only exception is the Passover which has to be eaten in Jerusalem).

Broiled fish cooked with fire is permissible because it is a different type of flesh.

As a descendant of Noah you are born into this EVERLASTING Covenant with YHWH Elohim.

Please watch my playlist **and fulfill your part** of the covenant!
